As of February 10, 2017

Investment Weekly

Commentary and Statistics

- U.S. equity indexes posted gains for the week as expressed by the Dow Jones, Nasdaq and S&P 500. Oil slightly dipped during the period and gold finished higher. The 10-year U.S. Treasury yield closed at approximately 2.41%.
- With 71% of S&P 500 companies having reported fourth quarter results, 67% have beaten earnings expectations while 52% have beaten sales expectations. According to FactSet, the fourth quarter blended earnings growth rate for the S&P 500 is 5.0%. If the index reports earnings growth for the quarter, it will mark the first time the index has recorded year-over-year earnings growth for two consecutive quarters since Q4 2014 and Q1 2015. Hasbro, Panera Bread and Deckers Outdoor impressed this week; Aratana Therapeutics, Michael Kors and Gilead Sciences were among the disappointments.
- Difficulties in enacting President Donald Trump's policy initiatives, in the background since his November election, were a primary narrative thread during the week. Regulatory relief, tax reform and Obamacare repeal remain bogged down by logistical challenges and disagreement on approaches. President Trump made the statement that "something phenomenal" will likely be announced on taxes in the next two to three weeks.
- Initial jobless claims fell 12K to 234K in the week ended February 3, below the 250K consensus and just above the 233K cycle low reported back in November. This represents the longest streak (101 weeks) of claims below the 300K level since 1970. The four-week moving average fell to 244K from 248K, a new cycle low.
- According to the Mortgage Bankers Association, U.S. mortgage applications rose 2.3% in the week ended February 3, compared to a 3.2% drop in the previous week.

Voya Investment Management

Equity | Fixed Income | Multi-Asset Strategies & Solutions

Voya Investment Management is the asset management arm of Voya Financial, a leader in retirement services and investing. Our investment platform has been carefully built to help meet the long-term needs and goals of our clients, supported by more than 200 investment professionals. Our deep understanding of managing risk exposure and capturing unrecognized investment potential through intense fundamental research and skilled portfolio construction has delivered a consistency of results across continuously evolving market cycles. Today, we are proud to manage more than \$217 billion in assets for investors.¹

85% of our assets outperformed their benchmark or peer median on a 3-year basis.²

85% of our assets outperformed their benchmark or peer median on a 5-year basis.²

85% of the time our portfolios outperformed their benchmark on a rolling 3-year basis.³

Past performance does not guarantee future results.

¹ As of 12/31/16, Voya IM assets of \$217 billion include proprietary insurance general account assets of \$89 billion calculated on a market value basis. Voya IM assets, as reported in Voya Financial, Inc. SEC filings, include general account assets valued on a statutory book value basis and total approximately \$211 billion. ² Metrics presented use pre-determined criteria to measure each individual investment product based on its ability to either A) rank above the median of its peer category; or B) outperform its benchmark index on a gross-of-fees basis. Generally speaking, the results for unconstrained, fully-active investment products were based on relevant peer category rankings while those of "enhanced index", rules-based, risk-constrained, or client-specific investment products were based on benchmark-relative performance. Metrics are calculated on an annualized basis and includes mutual funds as well as pooled and separately-managed institutional portfolios that fall within our traditional (long-only) commercial book of business that remain open as of 12/31/16. If terminated and other accounts had been included, results may have differed from that shown. ³ Metrics are based on observations of rolling 3-year annualized returns over the last 30 months, calculated on an annualized, gross-of-fees basis, and includes mutual funds as well as pooled and separately-managed institutional portfolios that fall within our traditional long-only commercial book of business that remain open as of 12/31/16. If terminated and other accounts had been included, results may have differed from that shown. Source of performance returns and peer medians is Voya Investment Management but is based in part on data from Morningstar (mutual funds) and eVestment (institutional composites). Further detailed information regarding these calculations is available upon request.
