Commentary and Statistics

- U.S. equities snapped back during a period peppered with mixed economic data. Oil and gold also climbed; the yield on the 10-year U.S. Treasury note finished the week at approximately 2.88%.
- With 80% of S&P 500 companies having reported fourth-quarter results, 75% have reported positive earnings per share (EPS) while 78% have beaten sales expectations. According to FactSet, the fourth quarter blended earnings growth estimate for the S&P 500 is 15.2%. As of February 16, 2018, the forward 12-month P/E ratio for the S&P 500 stood at 17.1, above the five-year average of 16.0 and higher than the ten-year average of 14.3. Under Armour, GNC and Fossil impressed this week while Groupon, Marathon Oil and Shake Shack disappointed.
- The release of January CPI data showed prices rose 0.5% month-to-month, faster than consensus for a 0.3% gain and well ahead of December's upwardly revised 0.2% monthly increase (had been +0.1%). It was the strongest monthly rise since January 2017, and prices were up 2.1% year-over-year. Core CPI (ex food and energy) rose 0.3% month-to-month, faster than consensus for 0.2% and ahead of December's downwardly revised 0.2% increase (was +0.3%). Overall, core CPI was up 1.8% year-to-year.
- January retail sales presented a gloomier economic picture. Headline retail sales declined 0.3% month-to-month in contrast to expectations for a 0.3% gain, and coming in worse than the downwardly revised flat reading for December (had been +0.4% month-to-month). The decline was the largest for the series in 11 months.

¹ As of 12/31/17, Voya IM assets of \$232 billion include proprietary insurance general account assets of \$90 billion calculated on a market value basis. Voya IM assets, as reported in Voya Financial, Inc. SEC filings, include general account assets valued on a statutory book value basis and total approximately \$224 billion. ² Metrics presented use pre-determined criteria to measure each individual investment product based on its ability to either A) rank above the median of its peer category; or B) outperform its benchmark index on a gross-of-fees basis. Generally speaking, the results for unconstrained, fully-active investment products were based on relevant peer category rankings while those of "enhanced index", rules-based, risk-constrained, or client-specific investment products were based on benchmark-relative performance. Metrics are calculated on an annualized basis and includes mutual funds as well as pooled and separately-managed institutional portfolios that fall within our traditional (long-only) commercial book of business that remain open as of 12/31/17. If terminated and other accounts had been included, results may have differed from that shown. Source of performance returns and peer medians is Voya Investment Management but is based in part on data from Morningstar (mutual funds) and eVestment (institutional composites). Further detailed information regarding these calculations is available upon request. ³ Metrics are based on observations of rolling 3-year or 5-year annualized returns over the last 30 months, calculated on an annualized, gross-of-fees basis, and includes mutual funds as well as pooled and separately-managed institutional portfolios that fall within our traditional long-only commercial book of business that remain open as of 12/31/17.
